

NLSDAYS 2016

Nordic Life Science Days

September 14-15, 2016
Stockholm, Sweden

Nordic Life Science Days is a **swedenBIO** event, produced by **bionordic**

Invest - Partner - Network

2 days for meeting with the best the Nordic region has to offer
2 days for new partnering opportunities
2 days for entering into new deals

Partnering powered by: **partneringONE** | a service of **EBN GROUP**

Special NLSDays 2016 Program Hosts:

NLSDays 2016 Program Advisor:

Arthur D Little

Welcome to the Nordic Life Science Days!

Välkommen, velkommen, tervetuloa, velkomíð!
Welcome to the Nordic Life Science Days 2016!

Or welcome back! Whether you are a first time visitor or a returning delegate, you are now part of a growing community, focused on business opportunities in Nordic Life Science.

After three editions, NLSDays can be considered as the largest invest and partnering meeting held in the Nordic region.

The growing success showed that we were on the right track. With 1000+ delegates last year, we knew that we had initiated an important networking arena for the Nordic and the global Life Science industry. This year's score shows that this will continue.

We are proud of our increasing cooperation with Oslo Cancer Cluster on an important part of our conference program focused on Oncology.

Oncology goes digital, Oncology diagnostics 2020 and Cancer Immunotherapy are the three Super Sessions we have developed together with OCC, showing how creative and determined minds come together.

We hope that you'll find your next business partner in the same creative and determined manner during these days. Make sure to use the partnering system and the many alternative meeting points set up during the meeting.

We want to thank all our speakers, presenters, sponsors, exhibitors and supporters for their continuous commitment and support, making this meeting possible.

Next year will be another important step in the Nordic Life Science Days journey. In September 2017, Nordic Life Science days takes place in Malmö-Copenhagen, in the heart of the Medicon Valley.

On behalf of SwedenBIO and Bionordic, we welcome you to a fruitful meeting and hope to see you again at the Nordic Life Science Days in September 2017!

What it's all about?

Sustainable healthcare – a shared challenge

The conference program at Nordic Life Science Days 2016 covers state of the art developments with potential solutions to several of the challenges facing healthcare and provides an arena for a discussion on what needs to happen in order to achieve a sustainable healthcare. Key components in the program include the possibilities offered by preventive measures, digitalization, precision medicine concepts and breakthrough therapies as well as how to access capital for development.

Achieving sustainable healthcare will not be easy and it is probably not scientific progress or technology that are limiting factors. Reaching the goal will require a bold and insightful leadership from politicians, healthcare providers, payers and industry alike and no progress will be made without a collaborative approach at all levels and where the patient's needs are put in the centre.

Our ambition with the conference program at Nordic Life Science Days is to inspire you to engage and be part of the journey towards a sustainable healthcare.

On behalf of SwedenBIO and Bionordic

Dr. Ola Björkman - Associate Professor - Program Director, NLSDays 2016

What do we mean by sustainable healthcare?

Achieving sustainable healthcare encompasses transforming healthcare by implementing patient centric, new technologies, treatments and procedures for prevention, alleviation of symptoms or cure thereby creating better value for patients and other stakeholders, the healthcare system and society at an affordable cost.

swedenBIO

The Swedish Life Science Industry Organization

We represent the leading life science companies in Sweden!

SwedenBIO is the national association for the life science industry in Sweden with over 200 members. We are a member-driven non-profit organization and our mission is to promote an environment that brings success and growth to the whole of Sweden's Life Science Industry.

1. We expand business networks

SwedenBIO holds several inspirational meetings, round table discussions, workshops and informal get-togethers throughout the year. The Nordic Life Science Days conference held annually in September has rapidly grown to become the largest international partnering meeting in the Nordic region. Find out more at www.nlsdays.com.

2. We build knowledge

The life science sector is experiencing a major structural change. One of SwedenBIO's objectives is to quickly distribute new knowledge — through our seminars, through information material and by linking the right people with one another.

3. We represent the industry

SwedenBIO is active in the public debate and represents the industry. We have a continuous dialogue with authorities and politicians about the industry's prospects. Thanks to SwedenBIO's six working groups with experts from our member companies, we are able to pursue a wide range of the issues.

The Swedish Drug Development Pipeline

Every year SwedenBIO summarizes the trends, status and progress of the collective drug development pipeline of Swedish companies. Read the latest report at www.swedenbio.se/pipeline.

bionordic

Conference Services for the Life Science Industry

Bringing your event to success!

Bionordic is a global event management company, organizing and producing conferences and corporate events. It supports a large range of international clients including public and private agencies, non-governmental organizations, regional and multinational corporations.

We are part of the new Nordic Life Science ecosystem, being innovative, creating content and value for our customers. We conceive, produce and deliver unique events and substantial partnering and networking opportunities.

Based on cutting edge and technology solutions, we offer our clients a full in-house specialist event management service supported by a passionate team of experts focused on creating amazing events.

What we are good at: Venue Sourcing, Event Management, Exhibition Management, Technical Coordination, Cost-Killing, Event Business Development & Sales, Public/Private Fundraising, Marketing & Participant Sourcing, Programme Design, Speakers Sourcing, Conference Website, Abstracts Applications, Online Registrations & Payments, Partnering Platform & Face-to-Face Meetings, Social & Community Networks.

We are proud to be the official producer of the Nordic Life Science Days, a SwedenBIO event.

---------------	--------------------------------------	--------------------

CO-HOSTED BY: **SwedenBIO** and **Bionordic**

The opening plenary welcomes you all and marks the beginning of the 4th Nordic Life Science Days. Life Science can play a major role in achieving sustainable healthcare, but success will depend on the growth of collaborations and partnerships that maximize the impact of digitalization, precision medicine and breakthrough therapies – a trend that will be highlighted in several of the sessions. Keynote speakers will inspire delegates and set the scene for this year's Nordic Life Science Days.

MODERATOR: **Mr. Mike Ward** - Chief Content Officer, Datamonitor Healthcare and Scrip Intelligence, Informa

SPEAKERS:

- **Mr. Olivier Duchamp** - Managing Director, NLSDays - CEO, Bionordic
 - **Dr. Jonas Ekstrand** - Director General, SwedenBIO
 - **Dr. Vincent L. Giranda** - Project Director, Oncology Development, AbbVie
-

Super Session 1

Level 5
Room A3

Why investing in early stage companies and innovative technologies?

Co-HOSTED BY: **Lyfebulb** and **Sanofi**

Access to capital is a prerequisite for start-ups developing new preventive measures or innovative treatments for patients. Venture capital may often be looking for later-stage opportunities, which forces young companies and emerging entrepreneurs to think creatively about financing sources. Non-dilutive disease foundations, government grants and venture philanthropy may be, options worthy of exploring as well as corporate venture arms and partnerships where capital is not the only asset. These models will be discussed and examples of companies, e.g. in the diabetic field benefiting from such funding, will be presented.

MODERATOR: **Dr. Karin Hehenberger** - Founder, Chairman and CEO, Lyfebulb

SPEAKERS:

- **Dr. Ulrich Wendt** - Head External Innovation & Alliance Management, Sanofi Diabetes, R&D
- **Mr. John Sjöland** - CEO and Co-Founder, Timesulin
- **Mr. Yngvar Berg** - Director and Interim CEO, Algipharma

What's hot in the eyes of international investors?

HOSTED BY: **Business Sweden**

It is essential in the current changing climate for biotech and medtech companies to stay in tune with global trends and developments. This is your opportunity to meet investors actively investing in European life science companies and listen to what they are looking for. The presentations by several investors pitching in a row will be followed by a panel discussion. The moderator, Mike Ward from Scrip Intelligence, will no doubt ask some bold questions.

MODERATOR: **Mr. Mike Ward** - Chief Content Officer, Datamonitor Healthcare and Scrip Intelligence, Informa

Creative Partnering

HOSTED BY: **AstraZeneca**

In the new life science landscape, big pharma is increasingly finding new ways to collaborate with small biotechs and academia in their pursuit to stay competitive and fill their pipelines. Innovation is a necessity for developing new products and in this session, we want to bring innovation into the process of partnering itself. Areas for discussion include how to run successful negotiations and the role of creativity, together with more hands-on questions such as what needs to be considered before entering into a negotiation, how to handle IP sensibly and when and how should you announce a deal.

Unmet medical needs in women – treatments around the corner

Co-Hosted BY: **Bayer** and **Innomedica**

Medical conditions only affecting women, including endometriosis, pregnancy complications and premenstrual dysphoric disorder, represent high unmet medical needs. In the absence of treatments targeting the causes of the condition, available alternatives have so far been limited to alleviating symptoms. However, there are currently several companies in the Nordics with potential treatments for these conditions being tested, some in advanced clinical stages.

The session will focus on providing an overview of the area, showcasing a few companies from the Nordics with ongoing developments and discussing the challenges and potential in coming years.

MODERATOR: **Ms. Tanja Dowe** - Managing Partner, Innomedica

SPEAKERS:

- **Mr. Olivier Martin Fischer** - Gynecological Therapies, Pharmaceuticals Division, Bayer
- **Mr. Tomas Eriksson** - CEO, A1M Pharma
- **Dr. Lena Degling Wikingsson** - CEO, Dilafor

OSLO CANCER
CLUSTER

Oncology goes Digital: novel partnerships for patient-centered solutions

HOSTED BY: **Oslo Cancer Cluster**

In Oncology, the complexity faced by researchers, clinicians, biopharmaceutical companies, patients and payers is immense. The massive and rapidly growing amounts of molecular and clinical data are being exploited in new ways and create new opportunities for drug development, optimized treatment and patient-centered decision-making. Non-traditional players and new products including real-time diagnostic nano-sensors, wearables, wireless devices, mobile applications enter the pharma sector.

International experts will present how big pharma is embracing digital health partners, highlight recent trends and projects from the Nordics and discuss how digitalisation will affect the oncology space for the benefit of patients.

MODERATOR: **Dr. Stefan Luzi** - Associate, Gilde Healthcare Partners

SPEAKERS:

- **Dr. Jutta Heix** - International Advisor, Oslo Cancer Cluster
- **Dr. Johan Liwing** - Director Market Access RWE Partnerships, Global Commercial Strategy Organization, Janssen / Johnson & Johnson Innovation
- **Dr. Francisco Rausa** - Sr. Principal Research Scientist, Future Therapeutics and Technology, AbbVie

Oncology Diagnostics 2020 – new tools for precision oncology

HOSTED BY: **Oslo Cancer Cluster**

CO-HOSTED BY: **Roche**

Precise diagnostics are extremely relevant for guiding treatment decisions in all stages of a patient's cancer disease – from early diagnosis to therapy selection and treatment monitoring to early detection of recurrence. Novel diagnostics are developed and tested for various types of cancers and building on new technologies including -omics, liquid biopsies, single cell technologies, nanotechnology, real-time monitoring supported by digital / ICT solutions and remote monitoring. Recent developments and emerging trends in cancer diagnostics are presented and discussed in this forward-looking, inspirational session. Spotlight is on Nordic examples and visionary solutions aiming to optimize clinical decision making.

MODERATOR: **Dr. Patrick Larcier** - Vice President Drug Development & Vigilance Operations, Voisin Consulting Life Sciences

SPEAKERS:

- **Prof. Carl Borrebaeck** - Centre Director CREATE Health, Lund University
- **Dr. Miro Venturi** - Global Head Diagnostics Biomarkers, Roche
- **Dr. Lao Saal** - CEO, Saga Diagnostics
- **Ms. Gitte Pedersen** - CEO, Genomic Expression

Co-HOSTED BY: **Nansen Neuroscience Network** and
Boehringer Ingelheim

Neuroscience and particularly Alzheimer's disease has not only proven to be one of the most challenging areas for finding treatments, it is also one of the diseases putting the greatest burden on society. Current treatment will only temporarily improve symptoms, but are there new treatments around the corner potentially stopping or significantly delaying the progression of the disease? International experts will share their views on what we can realistically expect in the near future.

MODERATOR: **Prof. Tormod Fladby** - Chairman, Nansen Neuroscience Network

SPEAKERS:

- **Dr. Klaus Mendla** - Global Head, CNS Business Development and Licensing, Boehringer Ingelheim
- **Dr. Christer Nordstedt** - Vice President and Head CNS Research and Clinical Investigation, Eli Lilly and Company
- **Prof. Lars Lannfelt** - Department of Public Health and Caring Sciences/Geriatrics, Uppsala University
- **Dr. Ingrid Teigland Akay** - Managing Partner, Hadean Ventures

PRV

EUROPEAN PATENT AND REGISTRATION OFFICE

Create value from your assets

CO-HOSTED BY: **PRV** and **Potter Clarkson**

Developing and maintaining a sustainable intellectual property strategy is vital for life science companies. This session, which partly will be interactive with the attendees, will cover what management in even the smallest life science company needs to consider, in order to safeguard its assets and create value for the company. The audience can expect hands-on advice on topics including branding, intellectual assets and tools to create value.

SPEAKERS:

- **Ms. Nina Isaksson** - Lawyer, Design and Trademark Department, PRV
- **Ms. Anna Hedberg** - Senior Patent Engineer, Patent Department, PRV
- **Dr. Tony Proctor** - European and UK Patent Attorney, Senior Associate, Potter Clarkson
- **Mr. Richard Roberts** - IP Solicitor, Partner, Potter Clarkson

abbvie

Cancer Immunotherapy – the universal cancer weapon?

HOSTED BY: **Oslo Cancer Cluster**

Co-HOSTED BY: **AbbVie**

Novel therapeutics stimulating the patient's own immune system to combat cancer have revolutionized melanoma and lung cancer treatment. Cancer immunotherapy is ASCO's "advance of the year 2016", and major R&D investments and intense partnering between academia, biotech and global Pharma create novel insights and drive innovation.

International experts from academia, biotech, and global pharma will present and discuss emerging concepts, current challenges, and how to overcome these. Key questions include how to select the best treatment or combination regimen for an individual patient and how novel concepts and combinations can benefit cancer types and patients so far not responding to cancer immunotherapy.

MODERATOR: **Prof. Inge Marie Svane** - Director Center for Cancer Immune Therapy – CCIT Dept. of Oncology and Hematology, Herlev Hospital, University of Copenhagen

SPEAKERS:

- **Dr. Vincent L. Giranda** - Project Director, Oncology Development, AbbVie
- **Dr. Khatereh Ahmadi** - Executive Director, Oncology Search and Evaluation Lead, European Hub, MSD
- **Dr. Øyvind Arnesen** - CEO, Ultimovacs
- **Prof. Karl Johan Malmberg** - Oslo University Hospital and Karolinska Institutet

11:15 - 12:30

Workshop 3

Level 3
Room 35/36

Eurostars – find your European partner for a joint EU funding application

HOSTED BY: **Vinnova**

CO-HOSTED BY: **The Swedish EUSME Support 2020 and Business France**

Eurostars is a EUREKA program, partly funded by EU that supports international innovative projects led by research and development-performing SMEs. The purpose is to enable small businesses to combine and share expertise, benefit from working beyond national borders and support market introduction. This session provides an arena for European life science companies to find partners for applying to Eurostars for joint funding.

Biovica - a company already involved in a Eurostars project will share their experiences, followed by short presentations by SME companies looking for Eurostars collaborations.

There will be plenty of ways to explore collaboration opportunities during a subsequent partnering session.

MODERATOR: **Dr. Karin Aase** - National Contact Point (NCP) SME, Vinnova

SPEAKERS:

- **Dr. Elisabet Nielsen** - National Contact Point EUREKA, Vinnova
- **Mr. Mattias Bergqvist** - VP Marketing, Sales & Clinical Development, Biovica
- **Pitching SMEs** looking for a partner (to be announced)

12:30 - 14:00

Arthur D Little

Sustainable HealthCare – myth or reality?

HOSTED BY: **Arthur D. Little**

New, innovative solutions are required to ensure the sustainability of healthcare systems around the world. The ongoing digitalization movement has already proven to deliver new and cost-saving solutions, but the potential is still largely untapped. Additionally, improved technologies enabling e.g. early diagnosis and precision medicine, opens the way towards preventive medicine and improved efficiency of treatments. Implementing new solutions that improve patient care while also curbing escalating costs, require new forms of collaboration between academia, healthcare, life science companies, authorities and patients.

Examples on how digitalization and other programs can provide value to healthcare will be presented, but this session will also dive deep into questions such as: Are healthcare personnel prepared to embrace new solutions? What is required for digital initiatives between academia, the tech and life science industries and healthcare to truly deliver?

MODERATOR: **Dr. Ulrica Sehlstedt** - Partner, Arthur D. Little

SPEAKERS:

- **Mr. Hans-Erik Henriksen** - CEO, Healthcare Denmark
- **Dr. Carlos Cordon-Cardo** - Mount Sinai Hospital, New York
- **Mr. Diego Olego** - Senior Vice President, Philips
- **Mr. Ragnar Lindblad** - CMIO, Region Västra Götaland (VGR)

Nordic Stars Awards & Closing

HOSTED BY: **SwedenBIO** and **Bionordic**

CO-HOSTED BY: **Arthur D. Little**

bionordic
Conference Services for the Life Science Industry

Arthur D Little

Time for summing up and present a few of the highlights from Nordic Life Science Days 2016. Another, important part of the closing session is to announce the winners of the Nordic Stars Awards 2016.

The Nordic Stars Awards were established in 2013 with the purpose of rewarding particularly innovative companies belonging to the innovative Nordic life science community. The winners will give their view on how they are preparing for the future and experts from industry, academia and healthcare will discuss how collaboration facilitates further progress in life science for the benefit of patients, industry and society alike.

SPEAKERS:

- **Mr. Nils Bohlin** - Director, Arthur D. Little
- **Dr. Jonas Ekstrand** - Director General, SwedenBIO
- **Mr. Olivier Duchamp** - Managing Director, NLSDays - CEO, Bionordic

bionordic

Professional Solutions for Conferences & Events

- ▶ Our Market Place : the Nordic region
- ▶ Our Expertise : the Life Science industry
- ▶ Our Mission : Bring your event to success

GLOBAL EVENT ORGANIZATION

Bionordic is a global event management company. We organize and produce conferences and corporate events across the Life Science industry sector.

FACE-TO-FACE MEETINGS

Bionordic provides professional partnering solutions adapted to your needs and the number of participants attending your events.

ONSITE TECHNOLOGY

Bionordic offers a full range of computer and audiovisual equipment and a network services. Experts in IT and Information Technology Consulting are part of our overall service approach.

CLOUD EVENT SOFTWARE

Bionordic makes your event a success by applying its expertise in event website development, registration, online payments, CRM tools, abstracts and posters management.

INTRANET & COMMUNITY

Bionordic delivers full configurable Intranet combined with interactive communication and collaboration tools that you are used to from social networks.

Bionordic, your partner in events!
