# Welcome to the Nordic Life Science Days!

Välkommen, velkommen, tervetuloa, velkomíð!  
Welcome to the Nordic Life Science Days 2018!

Or welcome back! Whether you are a first time visitor or a returning delegate, you are now part of a growing community, focused on innovation and business opportunities in the vibrant Nordic life science ecosystem.

After five editions and growing in a rapid pace, NLSDays has become the largest annual invest-partnering-network meeting held in the Nordic region. Here you can meet and get to know everything from established innovative life science companies to new exciting startups you have never heard about before. And, not to forget, you will have the opportunity to network with key opinion leaders and decision makers from the whole Nordic life science sector.

As organizers, we are keen to create a professional but yet friendly and relaxed atmosphere, optimizing your chances of having a successful meeting. We hope that you'll find your next business partners during these days. Make sure to use the partnering system and the many alternative meeting points set up during the meeting.

We want to thank all our speakers, presenters, partners, exhibitors and supporters as well as the local and national hosts' committee for their continuous commitment and support, making this meeting possible.

On behalf of SwedenBIO and Bionordic, we welcome you to an amazing and fruitful meeting and hope to see you again at the Nordic Life Science Days 2019 in the heart of the Medicon Valley, September 10-12!

# SwedenBIO's vision about NLSDays

## The development of a wider concept

SwedenBIO and Bionordic co-founded NLSDays six years ago and we are committed to continue the development of a meeting serving the current and future needs of the Nordic life science community.

Significant efforts are constantly made to keep the event highly relevant, attracting an even wider audience. NLSDays shall not only continue to be the most relevant platform for international life science partnering and networking with a Nordic focus, but will also be further developed into an arena for knowledge transfer as well as an important policy forum.

NLSDays is an integrated part of SwedenBIO's and a central part of a series of stepwise evolving meetings, courses and events. These are forming an integrated platform serving the Nordic life science community in several ways with the main goal of increasing quality and business in the Nordic life science sector.

From an international perspective, NLSDays' USPs are mainly the Nordic content in the program as well as the high number of Nordic SMEs participating in the partnering activities.

For the Nordic life science community, the most significant USP is access to international collaborators and investors.

For the successful future developments of NLSDays, we actively seek and collaborate with partners that may add significant value to NLSDays and we welcome proposals from interested parties.

meets your needs and budget.

The Swedish Life Science Industry Organization

## We represent the leading life science companies in Sweden!

SwedenBIO is the national association for the life science industry in Sweden. Our mission is to promote an environment that brings success and growth to the whole of Sweden's life science industry.

### **1. We expand business networks**

SwedenBIO holds several inspirational meetings, round table discussions, workshops and informal get-togethers throughout the year. The Nordic Life Science Days conference held annually in September has rapidly grown to become the largest international partnering meeting in the Nordic region. We wish you a successful meeting!

### **2. We build knowledge**

The life science sector is experiencing a major structural change. One of SwedenBIO's objectives is to quickly distribute new knowledge — through our seminars, through information material and by linking the right people with one another.

### **3. We represent the industry**

SwedenBIO is active in the public debate and represents the industry. We have a continuous dialogue with authorities and politicians about the industry's prospects. Thanks to SwedenBIO's working groups with experts from our member companies, we are able to pursue a wide range of these issues.

[www.swedenbio.se](http://www.swedenbio.se)

[www.nlsdays.com](http://www.nlsdays.com)

## Find your next business partner among our members

SwedenBIO has more than 250 members covering the whole ecosystem of the life science sector. Our members are engaged in R&D, production and sales in fields such as biotech, medtech, diagnostics and pharma. Furthermore, some of our members are experts in business development, IP, law, and life science communications.

### **Exploring 369 drug discovery and development projects**

Every year SwedenBIO maps different parts of the life science industry, where the aim is to visualize trends and progress among the companies. The reports also function as business development tools for those interested to know more about Swedish R&D-projects. The reports include lists of companies and their projects categorized by therapeutic area, stage of development, partnering status and more. In the latest investigation, 369 projects were described, the majority within oncology and many projects targeting an orphan disease.

### **The Swedish precision medicine industry landscape at first glance**

In the most recent report published in 2018, the precision medicine landscape was illustrated for the first time, showcasing a selection of 76 Swedish companies and their technologies. The report also contain a selection of the many global enterprises that have a significant presence in Sweden with R&D and manufacturing sites, as well as through their many collaborations with academia and growing Swedish companies.

Opening plenary	Welcome & opening plenary .....	p. 21
Super session 1	Financing .....	p. 22
Super session 2	Return on engagement .....	p. 24
Special session	Nanomedicine .....	p. 25
Super session 3	Crossroads in biopharma and healthtech .....	p. 26
Super session 4	Precision medicine .....	p. 28
Super session 5	Drug delivery of the future .....	p. 29
Workshop 1	Services providers as trusted partners .....	p. 27
Workshop 2	The Innovative Medicine Initiative (IMI) .....	p. 30
Company presentations	.....	p. 42

## Wednesday, September 12, 2018

Super session 6	International investors pitching .....	p. 33
Super session 7	Reproductive medicine .....	p. 34
Super session 8	Catching the immuno-oncology wave! .....	p. 37
Super session 9	Artificial intelligence in life science .....	p. 38
Workshop 3	Emerging technologies .....	p. 35
Workshop 4	Intellectual property .....	p. 36
Closing plenary	Nordic Stars Awards & Closing address .....	p. 39
Company presentations	.....	p. 42

Monday, September 10, 2018

09:00 - 15:15

## Satellite symposium

Bus transfer to  
Aula Medica,  
Karolinska  
Institutet

### SciLifeLab - A national resource for life science

HOSTED BY: **SciLifeLab**

SciLifeLab (Science for Life Laboratory) is Sweden's national center for molecular biosciences, with the mission to provide a unique and enabling infrastructure to the life science community, facilitate internationally leading collaborative science, and promote the translation of biomolecular research findings into lasting societal benefits.

As part of the Nordic Life Science Days 2018, we invite you to attend a one-day satellite symposium to learn more about SciLifeLab, meet our facilities, investigate our capabilities and technologies, and further develop how your organization can leverage this unique asset in Sweden's life science sector.

11:45 - 16:30

## Site visit to GE HealthCare & Testa Center

Bus transfer to  
GE Healthcare  
Life Sciences'  
site

### GE HealthCare Life Sciences helps to increase global access to biopharmaceuticals

HOSTED BY: **Testa Center** and **GE HealthCare**

During the past years, we have been witnessing tremendous growth in the biopharmaceutical sector; biodrugs are now the world's fastest-growing class of medicines.

GE Healthcare Life Sciences develops and manufactures both the equipment and supplies to manufacture biopharmaceuticals, and today all ten top biologic drugs in the market use GE technologies in their manufacturing processes.

We are inviting you to visit GE Healthcare Life Sciences' site in Uppsala that employs around 1,200 people, covering production, research & development and business support services. The factory in Uppsala is one of the largest manufacturing facilities for chromatography resins in the world, and between 2017 and 2022 GE is annually investing up to USD 70 million to increase the production capacity.

In August opens Testa Center in Uppsala, a major initiative between the Swedish government and GE to secure the growth of the nation's life science industry and its manufacturing capabilities in particular. This facility is purpose-built for verifying digital, technical or biological innovations in an authentic production setting and open to academia, start-ups and industry.

Join us for an afternoon to experience this exciting and innovative life sciences site that helps to increase access to biopharmaceuticals globally.

14:00 - 21:00	<b>Pre-registration</b>	Level 4 Entrance hall
14:00 - 21:00	<b>Exhibitors setup</b>	Level 4 Exhibition hall
16:00 - 17:30	<b>Academic Catwalk</b>	Level 4 Exhibition hall

**Advancing academic ideas into innovations for patients**HOSTED BY: **Spark Norway**

Academia is a key engine for medical innovation and many life science projects becoming commercial successful originate from academic centers. Big ideas very often come from ground-breaking academic research. Recognizing that majority of the global companies made academic-industrial partnerships an integral part of their strategies and opened their R&D organizations to external innovation.

The Academic Catwalk features exciting academic projects from three Nordic countries illustrating the rich and broad research milieus and their motivation to advance their ideas into innovations for patients.

The session is hosted by SPARK Norway in collaboration with the European partners SPARK Finland and SPARK Berlin and supported by Karolinska Innovation.

MODERATOR: **Prof. Craig Garner** - Berlin Institute of Health, Founder SPARK Berlin

## SPEAKERS:

- **Dr. Ulla Aapola** - Project Leader, University of Tampere, Spark Finland
- **Dr. Magnus Aronsen** - Project Leader, UiO, Spark Norway
- **Dr. Gunnveig Grødeland** - Project Leader, UiO, Spark Norway
- **Prof. Per Hall** - Professor, Karolinska Institutet
- **Prof. Klaus Hedman** - Project Leader, University of Helsinki, Spark Finland
- **Mr. Jonas Skogestad** - Project Leader, UiO, Spark Norway
- **Dr. Ylva Trolle Lagerros** - Associate Professor, Karolinska Institutet

18:00 - 19:30

## Startup Challenge @ NLSDays 2018

Level 4  
Exhibition hall

### The best Nordic startups' competition

HOSTED BY: **Umeå Biotech Incubator**

SPONSORED BY: **Pfizer**

Startup Challenge is an enjoyable pitching event showcasing the best and brightest startups currently emerging from the Nordic life science ecosystem.

Based on their video contributions, the best 12 have been selected to pitch live in front of life science industry decision makers and investors. It means that they will be pitching in front of a qualified audience.

MODERATOR: **Ms. Carolina Hawranek** - Head of PR and Communications, Umeå Biotech Incubator

Selected finalists:

Akuru Pharma (SE) – Bioreperia (SE) – Game Intelligence (SE) – Gedea Biotech (SE) – Letsip (NO) – Lipum (SE) – MediTuner (SE) – Operationskollen (SE) – Quantum Leap Computing Labs (DK) – Sigrid Therapeutics (SE) – Stayble Therapeutics (SE) – Tirmed Pharma (SE)

18:00 - 21:00

## Welcome drink reception

Level 4  
Exhibition hall

### Join those who already arrived

CO-HOSTED BY: **SwedenBIO** and **Bionordic**

Meet the organizers and old friends or make new contacts at our welcome reception. Enjoy finger food and drinks with us!

06:15 - 07:00	<b>Morning run</b>  <b>Join physiology Prof. Carl Johan Sundberg for a refreshing morning jog.</b>	Stockholm Waterfront - Entrance
07:00 - 18:15	<b>Registration</b>	Level 4 Entrance hall
07:00 - 18:15	<b>Exhibition open</b>	Level 4 Exhibition hall
07:00 - 18:15	<b>Speakers &amp; presenters ready room</b>  For speakers and presenters - After picking-up your badge at the registration desks, you will have the opportunity to update/modify/print and upload your presentation file at our Speakers room.	Level 4 Room 21
07:00 - 09:00	<b>Morning breakfast</b>	Level 4 Exhibition hall
08:30 - 09:15	<b>Opening plenary</b>    <b>Welcome address and keynote speeches</b>  Co-HOSTED BY: <b>SwedenBIO</b> and <b>Bionordic</b>  The organizers welcome you all and the opening plenary marks the beginning of the 6th Nordic Life Science Days.  MODERATOR: <b>Mr. Mike Ward</b> - Chief Content Officer, Informa Pharma Intelligence - Contributor, BioPharma Dealmakers & Nature Research Group  SPEAKERS: <ul style="list-style-type: none"><li>• <b>Dr. Jonas Ekstrand</b> - Director General, SwedenBIO</li><li>• <b>Mr. Olivier Duchamp</b> - Managing Director, NLSDays - VP BD &amp; Promotion, SwedenBIO</li><li>• <b>Dr. Shiva Kumar</b> - VP &amp; Chief Strategy Officer, IBM Watson</li><li>• <b>Dr. Jenni Nordborg</b> - Director &amp; National Coordinator Life Sciences, The Government Offices - Head of Health Division, Vinnova</li></ul>	Level 5 Plenary room

Tuesday, September 11, 2018

08:30 - 18:30

## Face-to-face meetings

Level 2,3 & 4  
Partnering areas

POWERED BY: **partneringONE**

PARTNERING BOOTHS SPONSORED BY: **Pharmalex**

09:30 - 11:00

## Super session 1

Level 5  
Plenary room

### Financing

#### Life science financing - From seed to market

HOSTED AND SPONSORED BY: **DNB**

Starting and evolving a company requires funds. This session is aimed at helping you better navigate the jungle of financing. We will take you through inspiring journeys that will be discussed by an experienced panel of investors.

MODERATOR: **Dr. Sonia Benhamida** - Senior Vice President Healthcare, DNB

#### SPEAKERS:

- **Mr. Kim Baden-Kristensen** - Founder & CEO, Brain+
- **Mr. Carsten Borring** - Head of Listings & Capital Markets, Nasdaq
- **Mr. Stephan Christgau** - Senior Partner, Novo Seeds
- **Dr. Scott Cuthill** - Chief Business Officer, Valo Therapeutics
- **Mr. Jacob Gunterberg** - Partner, HealthCap
- **Dr. Øyvind Kongstun-Arnesen** - CEO, Ultimovacs
- **Mr. Anders Martin-Löf** - CFO, Wilson Therapeutics
- **Dr. Patrik Sobocki** - Investment Manager, Industrifonden
- **Mr. Nikolaj Sørensen** - CEO & President, Orexo

09:30 - 11:00

## Company presentations 1

Level 2  
Room 24-25

### Pharmaceutical presentations

#### COMPANIES:

- 09:30 Alzecure Pharma** - Pharmaceutical
- 09:37 Atrogi** - Pharmaceutical
- 09:44 Ilya Pharma** - Pharmaceutical
- 09:51 Follicum** - Pharmaceutical
- 09:58 Beactica** - Pharmaceutical
- 10:11 Karessa Pharma** - Pharmaceutical
- 10:24 Redwood pharma** - Pharmaceutical
- 10:37 Xspray Pharma** - Pharmaceutical
- 10:50 SOBI** - Pharmaceutical

09:30 - 11:00

## Company presentations 2

Level 3  
Room 35-36

### Biotechnology presentations

#### COMPANIES:

- 09:30 Cobra Biologics** - Biotechnology - Other
- 09:43 Immunicum** - Biotechnology - Therapeutics & Diagnostics
- 09:56 Scandinavian Biopharma** - Biotechnology - R&D Services
- 10:09 Oncodesign** - Biotechnology - Therapeutics & Diagnostics
- 10:16 Pelago Bioscience** - Biotechnology - R&D Services
- 10:23 Catapult Life Science** - Biotechnology - R&D Services
- 10:30 Transentic Interactions** - Biotechnology - R&D Services
- 10:37 Immunovia** - Biotechnology - Therapeutics & Diagnostics
- 10:44 Abera Bioscience** - Biotechnology - Therapeutics & Diagnostics
- 10:51 Alligator Bioscience** - Biotechnology - Therapeutics & Diagnostics

11:00 - 11:30

## Coffee Break

Level 4  
Exhibition hall

11:30 - 12:30

## Super session 2

Level 5

Plenary room

### Return on Engagement

**Patient engagement as a strategic imperative in medicines development - Let's look at the evidence on 'return on engagement'**

HOSTED BY: **SOBI**

SPONSORED BY: **SOBI and NDA Group**

Patient engagement is very much in vogue, but does it really make a difference and how can we measure this? This session will look at what patient engagement actually means in practical terms, and its impact as a business development tool, drawing on concrete good practice examples from the rare diseases community and personalised medicines.

We will also explore European and international initiatives that are co-creating tools, metrics and resources to enable more structured and systematic patient engagement throughout the life cycle of medicines - specifically PARADIGM – a new Innovative Medicines Initiative Project, and PFMD, a global platform on patient engagement.

MODERATOR: **Dr. Mathieu Boudes** - Public/Private Partnership Coordinator, European Patients' Forum (EPF)

SPEAKERS:

- **Ms. Hanne Damgaard Jensen** - Founder & CEO, ROS Therapeutics
- **Dr. Marc Gailhardou** - Managing Director, MSD Nordics
- **Dr. Ana Palma** - Senior Director Global HTA & Patient Access Lead, Sobi
- **Dr. Markku Toivonen** - Scientific Director, NDA Group

11:30 - 12:30

## Company presentations 3

Level 2

Room 24-25

### Big Pharma presentations

COMPANIES:

**11:30 AstraZeneca** - Pharmaceutical

**11:50 Bayer** - Pharmaceutical

**12:10 Bristol-Myers Squibb** - Pharmaceutical

11:30 - 12:30

## Company presentations 4

Level 3  
Room 35-36

### HealthTech - Suppliers & Engineering presentations

#### COMPANIES:

- 11:30 Lund University** - Public & Non-Profit Organization
- 11:37 Asahi Kasei Bioprocess** - Supplier & Engineering
- 11:50 Mercodia** - Supplier & Engineering
- 12:03 RISE** - Public & Non-Profit Organization
- 12:10 BrainCool** - HealthTech

12:30 - 14:00

## Lunch buffet

Level 4 & 5  
Exhibition hall  
& Mezzanine

14:00 - 15:00

## Special session

Level 3  
Room 35-36

### Nanomedicine Nano to mega

HOSTED BY: **Medeon** and **NanoMedNorth**

Visionary companies exploiting nano-features to boost pharma and medical device products. Scientific, financial and commercial perspectives of nanomedicine will be covered.

MODERATOR: **Mr. Patrick Boisseau** - Programme Manager on Nanomedicine, CEA-Leti

#### SPEAKERS:

- **Dr. Filippo Bosco** - Founder & CEO, BluSense Diagnostics
- **Dr. Maureen Deehan** - Head of Corporate Development & Strategy, Nordic Nanovector
- **Dr. Mats Hansen** - CEO, Spago Nanomedical
- **Mr. Magnus Larsson** - CEO, Promimic
- **Dr. Agneta Richter-Dahlfors** - CEO, EBBA Biotech
- **Mr. Kristian Thulin** - CSO, Obducat Technologies

14:00 - 15:00

### Super session 3

Level 5

Plenary room

#### Crossroads in biopharma and healthtech

#### What is the role of digital health in pharma and biotech?

HOSTED BY: **Sahlgrenska Science Park**

Technology gives access to a wealth of data and enables personalized care in an increasingly connected world. Future innovation in life science is about integrating medtech, pharmaceuticals and digital solutions. It requires innovative thinking in many dimensions.

How can we increase cooperation to integrate these areas more?

The regulatory requirements within pharma are challenging. The crucial question is how to handle the rapid development and take advantage of digital health solutions.

How can new technologies help improve compliance? What digital solutions will differentiate tomorrow's drugs and change care?

How can digital development support and shorten the journey from idea to implemented service or product?

How should we drive the future's innovation process so that digital solutions become an integrated part of the product development process? What drives traditional investors to invest digital health?

CO-MODERATORS:

**Dr. Magnus Björsne** - CEO, AstraZeneca BioVentureHub

**Ms. Charlotta Gummesson** - CEO, Sahlgrenska Science Park

SPEAKERS:

- **Ms. Jennifer Grönqvist** - Business Advisor HealthTech Nordic, SSP
- **Mr. Magnus Jörntén-Karlsson** - Project Director, AstraZeneca R&D
- **Dr. Sara Lei** - Clinical Advisor, Karolinska University Hospital
- **Dr. Ingrid Teigland Akay** - Managing Partner, Hadean Ventures

14:00 - 15:00

## Company presentations 5

Level 2  
Room 24-25

### Big Pharma presentations

COMPANIES:

**14:00 Boehringer Ingelheim** - Pharmaceutical

**14:20 Johnson & Johnson Innovation** - Pharmaceutical

**14:40 MSD** - Pharmaceutical

15:15 - 16:15

## Workshop 1

Level 3  
Room 35-36

### Services providers as trusted partners

#### The virtual business model in drug development - challenges and opportunities

SPONSORED BY: **IQVIA** and **Servier CDMO**

Many SME companies focused on drug development choose to work according a virtual business model where key expertise is contracted ad hoc for specific tasks. Often also more general tasks such as project management may be covered by contracted staff. The virtual model is attractive because it adds flexibility and supports the agile organization. On the other hand, working virtually requires additional care when considering what tasks to outsource and criteria for selection of vendors.

The session "The virtual business model" will focus on "why", "when" and "how" from a company management perspective. When will virtual competence add the extra edge are there situation when the virtual model is not advantageous?

The speaker list includes speakers experienced in working in a virtual business model as well as companies supplying virtual services.

MODERATOR: **Dr. Anna Törner** - Managing Director, Scandinavian Development Services

SPEAKERS:

- **Mr. Martin Åmark** - CEO, Xbrane Biopharma
- **Dr. Martin Bonde** - CEO, Vaccibody
- **Dr. Charlotte Edenius** - VP Clinical and Business Development, Gesyntha Pharma
- **Mr. Pierre Gareau** - Business Development Manager, Servier CDMO
- **Ms. Michelle Morgan** - VP Sales and Account Management Emerging BioTech and Small Pharma, IQVIA

Level 5  
Plenary room

**Arthur D Little**

Bristol-Myers Squibb

### Precision medicine

**A precision approach is needed to master the complex changes required from the precision medicine opportunity**

HOSTED BY: **Arthur D. Little**

SPONSORED BY: **Bristol-Myers Squibb**

Opportunities within precision and personalized medicine attract much interest, not only from scientists, drug makers and patients but also from funders and decision makers.

Alongside opportunities, however, there are also several challenges to overcome to ensure successful launch and implementation of truly personalized therapies.

The changes required for drug manufacturers, healthcare providers and payers are radical and transformative, and involve the full value chain with all its stakeholders.

This session will talk about what it will really take from the healthcare ecosystem players when preparing for taking full advantage of the promising new precision treatments currently being developed in many important disease areas.

MODERATOR: **Dr. Ulrica Sehlstedt** - Partner, Arthur D. Little

SPEAKERS:

- **Dr. Ann Atlas** - Senior Scientific Advisor I-O and HCV, BMS
- **Dr. Sara Gunnerås** - Editor, Precision Medicine - The Swedish Industry Guide 2018, SwedenBIO
- **Dr. Helena Nord** - Project Leader, SciLifeLab
- **Prof. Eric Wahlberg** - CEO, Uppsala Academic Hospital
- **Mr. Craig Wylie** - Partner, Arthur D. Little

**Drug delivery of the future  
Ongoing initiatives and future challenges**

HOSTED BY: **Sweden Drug Delivery Industry Group**

SPONSORED BY: **APL**

Drug delivery is the science of getting the right amount of active drug to the right place in the body at the right time. The area of drug delivery has increased in importance as the medical needs continuously present new challenges to us and new and more complex treatment modalities are developed. In some of these modalities the drug delivery system and the active pharmaceutical ingredient (API) will be integrated to form the therapy and need to be fully aligned. Furthermore, challenges such as patient adherence, paediatrics/geriatrics and personalized medicine present challenges where innovative drug delivery solutions can add huge value to patients and society.

In this session, we will have presentations from three ongoing research initiatives related to advanced drug delivery: Sweden Drug Delivery Forum, NextBioForm and FoRmulaEx. We will also get a brief introduction to the industry network Sweden Drug Delivery Industry Group and get some messages from the sponsors of this session. Finally, a short panel discussion with the presenters discussing the future challenges and new opportunities will finish off the session.

**MODERATOR: Dr. Eva Sjökvist-Saers** - CEO & Managing Director, APL

**SPEAKERS:**

- **Dr. Christel Bergström** - Associate Professor, Uppsala University
- **Dr. Elin Esbjörner** - Associate Professor, Biophysical Chemistry and Biochemistry, Chalmers University
- **Dr. Andreas Hugerth** - Senior Product Development Manager, Ferring Pharmaceuticals
- **Dr. Lasse Leino** - CEO, DelSiTech

## Workshop 2

Level 3  
Room 35-36

### The Innovative Medicine Initiative (IMI)

HOSTED BY: **Vinnova**

The Innovative Medicines Initiative (IMI) is a partnership between the European Union and the European Pharmaceutical Industry. IMI facilitates open collaboration in research to advance the development of, and accelerate patient access to, personalized medicines for the health and wellbeing of all, especially in areas of unmet medical need.

MODERATOR: **Dr. Gunnar Sandberg** - Program Director, Vinnova

SPEAKERS:

- **Dr. Bertil Abrahamsson** - Senior Principal Scientist, AstraZeneca
- **Dr. Colm Carrol** - Scientific Project Manager, IMI Joint Undertaking
- **Ms. Magda Chlebus** - Director Science Policy, EFPIA
- **Prof. Mikael Kubista** - CEO and Founder, ATAA Bio-Center

18:30 - 20:30

## Official networking reception

Stockholm City  
Hall

Invest Stockholm

HOSTED BY: **Stockholm the Capital of Scandinavian, Stockholms Stad** and **Invest Stockholm**

Sponsored by the City of Stockholm, Stockholms Star and Invest Stockholm, the conference participants are welcome to an official reception by the City of Stockholm.

The Stockholm City Hall is one of Sweden's most famous buildings, and one of the capital's most visited tourist attractions. It is famous for its grand ceremonial Blue and Golden Halls and unique pieces of art and is the venue of the Nobel Prize banquet held on 10th of December each year.

20:30 - 23:00

## After networking reception

Stockholm  
Waterfront  
Bar lounges

HealthCap

HOSTED BY: **HealthCap** and **Stockholm the Capital of Scandinavia**

Right after the official reception held at the City Hall, just walk back to the Waterfront Convention Center and enjoy an happy hour and after party time!

In a relaxed and musical atmosphere, you'll get the opportunity to share drinks and sweet treats together with your friends and conference mates.

## Super session 6

Level 5  
Plenary room

### International investors pitching

SPONSORED BY: **LifeSci Advisors**

Given you sometimes only get one chance to tell your story right, its essential that pitch it appropriately to investors. This session will provide an opportunity to hear from leading life science investors to better understand their areas of interest and investment criteria and what they would like to hear from you.

The pitching session will be followed by an interactive QA session to provide the audience with an opportunity to ask questions.

CO-MODERATORS: **Ms. Katja Stout** - Managing Director, Scius Communications

**Mr. Hans Herklots** - Managing Director, LifeSci Advisors

#### SPEAKERS:

- **Mr. Johan Kördel** - Senior Partner, Lundbeckfonden Ventures
- **Ms. Oxana Kukhaneva** - Venture Partner, Seventure Partners
- **Dr. Holger Reithinger** - Partner, Forbion
- **Dr. Mårten Steen** - Partner, HealthCap
- **Dr. Ingrid Teigland Akay** - Managing Partner, Hadean Ventures
- **Dr. Cheryl Zimmerlin** - Associate, Merck Ventures

## Super session 7

Level 5  
Plenary room

### Reproductive medicine

### Reproductive medicine and new business opportunities

HOSTED BY: **ReproUnion**

This super session gathers top experts from the pharmaceutical and private fertility industry who will discuss the business and the industries perspective on reproductive medicine.

Every 12th child is conceived in a fertility clinic. 16-25 % of couples that try to get pregnant have fertility problems. The birth rate has fallen drastically over the past 50 years and most countries have fertility rate of less than 1,5 children per woman. The combination of demographic development and the low fertility rates demands new solutions and services. This development creates new business opportunities for the private fertility sector.

ReproUnion is a cross border collaboration between Sweden and Denmark within the area of reproductive medicine. The collaborative network consists of 14 clinical and research units within the Capital Region of Denmark, Region Zealand of Denmark and Region Skåne in Southern Sweden.

**MODERATOR: Dr. Stig Jørgensen** - Program Director ReproUnion

**SPEAKERS:**

- **Dr. Stig Jørgensen** - Program Director ReproUnion
- **Dr. Marcel Van Duin** - VP, Head Reproductive Health & Endocrinology Research, Ferring Pharmaceuticals
- **Dr. Rita Vassena** - Scientific Director, Eugin, Executive Member of ESHRE

Exhibition hall

11:15 - 12:45

**Workshop 3**Level 2  
Room 24-25**SciLifeLab****SciLifeLab - Emerging technologies in molecular life science**HOSTED BY: **SciLifeLab**

Technological advancements in molecular life science are evolving at an ever-increasing rate. As we move towards greater integration of large-scale omics into both preclinical and clinical settings, novel and complementary methods for detection, characterization, and diagnosis of disease states at highresolution and throughput are emerging. At SciLifeLab, development and application of new tools for life science are a core component of our mission.

In this workshop, we will present four innovative technologies we make available to the Swedish research community and interactively discuss their use and application.

How will the development of these and other emerging technologies help shape the future of healthcare, drug discovery and diagnostics? How do we secure transfer of knowledge and development of new technologies towards applications in healthcare and the private sector? In what way can SciLifeLab best support the life science research community in Sweden through collaboration and service?

MODERATOR: **Assoc. Prof. Tomas Lundqvist** - Senior Area Coordinator, RISE (Research Institutes of Sweden)

SPEAKERS:

- **Assoc. Prof. Petter Brodin** - Facility Director, SciLifeLab
- **Dr. Annika Jenmalm-Jensen** - Infrastructure Director, SciLifeLab
- **Prof. Ulf Landegren** - Facility Director, SciLifeLab
- **Prof. Joakim Lundeberg** - Facility Director, SciLifeLab
- **Prof. Gunnar Von Heljne** - Facility Director, SciLifeLab

11:15 - 12:45

**Workshop 4**Level 3  
Room 35-36
**Intellectual property (IP)**  
**Understanding intellectual property in life science business development**
HOSTED BY: **AWA**

This workshop takes a practical stand on how, when and why management of intellectual property will play a decisive role in the development of a life science business.

There is no "one size fits all" when working out a business plan, and consequently there is not one ready-made solution for managing intellectual protection of your invention, business plan and trade dress.

During this session, you will hear how experts in the fields of life science and intellectual property have successfully handled different business challenges with the use of intellectual property tools, to achieve the most suitable and profitable return on investment.

MODERATOR: **Ms. Daniela Ibis** - CEO, Daniela Ibis

SPEAKERS:

- **Mr. David Beijer** - CEO, Affibody
- **Ms. Ebba Fåhræus** - CEO, SmiLe Incubator
- **Ms. Louise Jonshammar** - Attorney At Law, AWA
- **Mr. Niklas Mattsson** - Partner and European Patent Attorney, AWA

11:15 - 12:45

## Super session 8

Level 5  
Plenary room

### Catching the immuno-oncology (I-O) wave! What is driving the next wave of innovation in cancer immunotherapy?

HOSTED BY: **Oslo Cancer Cluster**

SPONSORED BY: **Biopharma Dealmakers** and **Nature**

At this session, international experts from pharma, biotech, academia and the investment community will discuss how big data, personalized medicine, beyond the pill approaches, new targets, an increased understanding of the microbiome and insights from neuroscience could address these challenges and shape the next wave of innovation in immuno-oncology (I-O).

Over the past few years, the rapid development of novel cancer immunotherapy approaches has fundamentally disrupted the oncology space. I-O has not only become a key component of cancer therapy, but it has also reshaped priorities in oncology R&D across the industry, with unprecedented clinical success in certain cancer types continuing to fuel record investment and partnering activity. As of today, more than 2.000 I-O agents, including checkpoint-inhibitors, vaccines, oncolytic viruses and cellular therapies, are in preclinical or clinical development.

Yet, still only a minority of patients benefits from effective and durable I-O treatments. Beyond resistance or unexplained lack of response, which could be addressed through a better understanding of optimal timing of therapy, better combination therapy design, or improved patient selection, a lack of novel targets and of an overall better understanding of specific immune mechanisms is becoming a roadblock to further advance in the space.

**MODERATOR: Dr. Gaspar Taroncher-Oldenburg** - Editor-at-Large, BioPharma Dealmakers & Nature Research Group

#### SPEAKERS:

- **Dr. Martin Bonde** - CEO, Vaccibody
- **Dr. Emilio Erazo-Fischer** - Associate Director of Global Oncology BD, Boehringer Ingelheim
- **Dr. Simon S. Jensen** - CEO and Co-Founder, MonTa Biosciences
- **Dr. Erica Sloan** - Group Leader, Cancer & Neural-Immune Research Lab, Monash University
- **Dr. Richa Wilson** - Associate Director, Digital and Personalized Healthcare, Roche Partnering

**BUSINESS  
FINLAND**

**Artificial intelligence (AI) in life science**  
**The potential of health data and artificial intelligence**  
**in personalized medicine**

HOSTED BY: **Business Finland**

SPONSORED BY: **IBM**

The fast growing amount of biobank and health data presents an unparalleled opportunity for drug target and biomarker discovery, Real World Evidence (RWE) based research and personalized healthcare.

However, this opportunity presents also a challenge on how to make sense of this data and find medically meaningful discoveries.

The application of artificial intelligence solutions may provide one answer to this medical needle in a haystack problem and help us conquer the burden of common diseases such as diabetes, cancer and neurological diseases.

MODERATOR: **Dr. Sampo Sammalisto** - Advisor HealthTech, Business Finland

SPEAKERS:

- **Ms. Christina Busmalis** - Director, Global Life Sciences at IBM Watson Health
- **Prof. Mark Daly** - Director, Institute for Molecular Medicine Finland (FIMM)
- **Dr. Minna Hendolin** - Senior Director Health & Wellbeing, Business Finland
- **Dr. Visa Honkanen** - Director Strategic Development, Helsinki University Hospital

15:30 - 16:15

## Closing Plenary

Level 4

## A PLAYER IN SOCIETY

For nearly two hundred years we have acquired and shared knowledge, developed global networks and adapted to modern everyday life. To us, it is important to combine profitability with responsibility. Get to know us, and see how we work in one of the world's best capitalised financial services groups. We are here. So you can stay ahead.
