Welcome to the Nordic Life Science Days!

Välkommen, velkommen, tervetuloa, velkomíð!
Welcome to the Nordic Life Science Days 2019!

Or welcome back! Whether you are a first time visitor or a returning delegate, you are now part of a growing community, focused on business opportunities in the vibrant Nordic life science landscape.

After six editions and growing in a rapid pace, NLSDays has become the largest invest-, partnering- and network meeting held in the Nordic region. Here you can meet and get to know everything from well-known innovative life science companies to new exciting enterprises you have never heard about before. And, not to forget, you will have the opportunity to network with key opinion leaders from the whole Nordic life science sector.

As organizers, we are keen to create a professional but yet friendly and relaxed atmosphere, optimizing your chances of having a successful meeting. We hope that you'll find your next business partner during these days. Make sure to use the partnering system and the many alternative meeting points set up during the meeting.

We want to thank all our speakers, presenters, partners, exhibitors and supporters as well as the local host committee for their continuous commitment and support, making this meeting possible.

On behalf of SwedenBIO, we welcome you to an interesting and productive meeting and hope to see you again at the Nordic Life Science Days 2020 in Malmö, September 8-10!

We thank our Nordics' co-hosts

Nordic National Co-Hosts

Nordic Regional Co-Hosts

Openness, trust, innovation, sustainability and equality. Those are five values that shape the state of mind and political culture for 27 million people – The Nordics.

Year by year the Nordic life science community is evolving, and the bonds between us – the five neighboring countries – are strengthening. Today, the Nordic life science sector holds some of the world's most innovative and promising projects in its pipeline. Academic research flourishes, innovation blossoms, and more than 1500 companies work in this knowledge-intensive industry sector.

By joining forces, we believe that we can be even more successful in attracting intelligent capital and business-to-business collaborations to our life science sector.

Therefore we are very happy to see such a great interest and support from our collaboration partners making NLSDays the meeting platform it has become – and developing it further. We are also looking forward to the continued activities that goes beyond this meeting, showing the world what we have to offer.

We thank our NLSDays 2019 sponsors!

sponsoring opportunities

No matter what your business target is, increasing your brand visibility or connecting with decision makers from the Nordic region or from abroad, NLSDays has the sponsorship opportunity that meets your needs and budget.

The Swedish Life Science Industry Organization

We represent the leading life science companies in Sweden!

SwedenBIO is the national association for the life science industry in Sweden with over 260 members covering the entire ecosystem. Our members are engaged in R&D, production and sales in fields such as biotech, medtech, diagnostics and pharma. Furthermore, some of our members are experts in business development, IP, law and life science communications.

1. We expand business networks

SwedenBIO holds several inspirational meetings, round table discussions, workshops and informal get-togethers throughout the year. The Nordic Life Science Days conference held annually in September has rapidly grown to become the largest international partnering meeting in the Nordic region. We wish you a successful meeting!

2. We build knowledge

Every year SwedenBIO maps different parts of the life science industry, where the aim is to visualize trends and progress among the companies. The reports also function as business development tools for those interested to know more about Swedish R&D-projects. They include lists of companies and their projects categorized by therapeutic area, stage of development, partnering status and more. Find out more at www.swedenbio.se/reports.

3. We represent the industry

SwedenBIO is active in the public debate and represents the industry. We have a continuous dialogue with authorities and politicians about the industry's prospects. Thanks to SwedenBIO's working groups with experts from our member companies, we are able to pursue a wide range of issues.

Our mission is to promote an environment that brings success and growth to the whole of Sweden's life science industry.

Creating tomorrow's HealthTech solutions

COPENHAGEN
CAPACITY

Co-HOSTED BY: **Invest in Skåne, Medicon Valley Alliance**
and **Copenhagen Capacity**

The Nordics and Medicon Valley feature world-class healthcare and research institutions, highly skilled hardware and software expertise, a thriving game industry and a strong startup scene. When Nordic Life Science Days (NLSDays) is coming to Malmö 10th – 12th of September this year, this is a unique opportunity to showcase regional life science strongholds and reach out to the many international stakeholders that are here.

In order to seize this opportunity, Medicon Valley Alliance (MVA), Invest in Skåne, Copenhagen Capacity, and Medicon Valley Medtech Network have joined forces and decided to bring regional Danish and Swedish Health Tech expertise and entrepreneurship together with the international life science community of industry experts, investors and academia. Join us and be part of creating tomorrow's HealthTech solutions by connecting international Health Tech stakeholders with start-ups and researchers to address challenges in health care!

Move ATMP research into the clinic

HOSTED BY: **Swelife**

NLSDays is a fantastic meeting for finding the knowledge and contacts to develop your gene and cell therapy research into medicinal products.

As an ease in to NLSDays in Malmö, Swelife-ATMP, Bioneer, Medicon Village and CAMP are hosting a supporting event to start to discuss the issues around ATMP product development and commercialisation of gene and cell therapy research. You will also get the opportunity to network with other academics and businesses ATMPs.

VINNOVA

Eurostars workshop

HOSTED BY: **Vinnova**

Eurostars supports international innovative projects led by research and development- performing small- and medium-sized enterprises. With its bottom-up approach, Eurostars is an ideal first step in international cooperation, enabling small businesses to combine and share expertise and benefit from working beyond national borders. The role of SMEs for the economy has never been so important. Eurostars aims to bring increased value to the economy, higher growth and more job opportunities.

On the agenda:

- Why Eurostars? Introduction to the programme and how to apply.
- Learn about the Eurostars evaluation process.
- What support can you get in Sweden and in France?
- A company success story: Bioreperia – from idea to funded project.
- Q&A and networking

MODERATOR: **Dr. Sara Gunnerås** - Director Business & Finance, SwedenBIO

Speakers:

- **Dr. Peter Lindberg** - National Project Officer EUREKA, Vinnova
- **Dr. Jonas Tranell** - Eurostars Project Officer, Health Department, Vinnova
- **Mr. Mael Mbaye** - Project Officer, Bpifrance
- **Prof. Anna Fahlgren** - CEO and Founder, Bioreperia

Nordic Life Science Awards

Exhibition
area

This year we inaugurate the new Nordic Life Science Awards competition. The Nordic Life Science Awards will be given to one academic research group project ("Academic Class") with a break-through potential and to one life science-company ("Business Class") considered by the jury to best meet the award criteria presented in this document. A second company ("Delegates Choice") will be selected by popular vote.

The Jury consists of:

Dr. Sara Gunnerås, Director Business & Finance, SwedenBIO (Chair)

Dr. Ulrica Sehlstedt, Partner, Arthur D. Little

Ms. Sophie Labrosse, Cluster Officer at Novo Nordisk Foundation

Dr. Christos Vaitsis, Business Creation Manager at EIT Health Scandinavia

Ms. Erna Björnsdóttir, Manager, Invest in Iceland at Promote Iceland

Part 1 – Nordic Life Science Awards - Academic class Advancing academic ideas into innovations for patients

CO-HOSTED BY: **Spark Norway, Spark Finland, SciLifeLab, BioInnovation Institute, UiO: University of Oslo, Promote Iceland, Turku Science Park and Oslo Cancer Cluster**

SPONSORED BY: **EIT Health Scandinavia and Arthur D. Little**

Academia is a key engine for medical innovation and many life science projects becoming commercial successful originate from academic centers. Big ideas very often come from ground-breaking academic research. Recognizing that the majority of the global companies made academic-industrial partnerships an integral part of their strategies and opened their R&D organizations to external innovation.

The Academic Catwalk features exciting academic projects from five Nordic countries illustrating the rich and broad research milieus and their motivation to advance their ideas into innovations for patients.

Part 2 – Nordic Life Science Awards - Business Class and Delegates Choice

Co-HOSTED BY: **SwedenBIO, Oslo Cancer Cluster, HealthTurku, Danish Innovation Intitute** and **The Life Science Cluster**

SPONSORED BY: **EIT Health Scandinavia** and **Arthur D. Little**

Nordic life science companies are well known and respected for their strong science-base and a long history of bringing innovation to the market. The company session will feature two companies from each of the Nordic countries. The winner of the "Business Class Award" show scientific excellence and run projects that have a breakthrough possibility or have already made it to the market adding significant value to patients.

Financing

From seed to market; maintaining a sustainable capital market in the Nordics

CO-HOSTED BY: **DNB, Nasdaq, Novo Holdings** and **Industrifonden**

SPONSORED BY: **DNB**

Measured by the high level of business activities and the impressive number of companies, the Nordic life science sector is strong in an international context and has contributed to many innovations on the global market. Appropriate and timely financing is a must for the Nordic life science companies in order to progress the development of their respective project pipelines.

This session highlights specific Nordic features such as the growing number of early to mid-stage companies listed at the stock exchanges. We will also discuss how to maintain a sustainable life science capital market in the Nordics.

- Part 1: From to IPO: the stages of StartUp fundraising
- Part 2: Stockholm, the capital of IPOs (IPOs as exit possibility for VCs)
- Part 3: Maintaining a sustainable life science capital market in the Nordics

MODERATOR: **Dr. Sonia Benhamida** - Senior Vice President Healthcare, DNB Bank

Neurosciences

Latest developments in neurosciences R&D

HOSTED BY: **Adlersson & Heath**

SPONSORED BY: **MSD**

CNS diseases continue to pose immense burdens on both patients and society as a whole. But despite enormous amount of research most of current treatments only temporarily improve symptoms. What is needed to accelerate the development? Who is willing to invest in the neuroscience development projects despite all setbacks? And can we expect breakthroughs the coming years that will change the way we will address the neurosciences area?

International experts will share their views on what is expected and possible based on currently available knowledge.

MODERATOR: **Ms. Ingrid Heath** - Partner, Adlersson & Heath

SPEAKERS:

- **Dr. Jina Elise Swartz** - Global Clinical Development, MSD
- **Dr. Per-Ola Freskgård** - Vice Director & Distinguished Scientist Neuroscience, pRED Roche Innovation Center Basel

Drug discovery & development

The recipe for a successful drug discovery and development program – and how to move it forward?

HOSTED BY: **SwedenBIO**

SPONSORED BY: **Charles River** and **IQVIA**

During the last 30 years, outsourcing has changed from a rare occurrence to becoming a strategic board question in regards to how to speed up and de-risk development of the company's projects. For small and large companies alike, no one researches, develops or produces solely on their own. The industry once outsourced the overflow activities; it has now turned into a specialized industry with their own research and methods development to serve their clients in this highly competitive market.

In this interactive session (you will have a green and red sign to vote), we will listen to some good examples of how outsourcing could be done, where we all win.

MODERATOR: **Mr. Sverre Bengtsson** - Co-Founder, Owner and Senior VP Strategic Relations, PCG Solutions / Viedoc

SPEAKERS:

- **Dr. Eric Meldrum** - CSO, ENYO Pharma
- **Mr. Antonio Iervolino** - Associate Principal, IQVIA
- **Dr. Peter Gaskin** - Senior Director, Scientific Advisory Services, Charles River Laboratories
- **Dr. John Montana** - Corporate VP, Integrated Drug Discovery & Strategic Projects, Charles River Laboratories

swedenBIO
The Swedish Life Science Industry Organization

The Nordic life science innovation landscape Fostering an environment in which medical innovation can thrive

Co-HOSTED BY: **SwedenBIO** and **AWA**

Many ground-breaking life science innovations have their origin in the Nordics. Why is that? Can we utilize our developed ability to collaborate and exchange experiences to increase return on investment and develop our businesses further? In this thought-provoking and educational session, we will have a look at the Nordic life science innovation landscape. We will discuss different forms of collaborations forming a fostering environment for innovation. You'll get a taste of exciting open innovation opportunities at LEO Pharma, and learn how RISE - Research Institutes of Sweden, collaborate with Pfizer around new therapies. Also, find out where Nordic projects can reach global dimensions in collaboration with the US National Institutes of Health. A crucial part is of course about how to make business out of the collaboration. This will be its own theme throughout our session.

MODERATOR: **Ms. Louise Jonshammar** - Attorney At Law, AWA

SPEAKERS:

- **Dr. Niclas Nilsson** - Head of Open Innovation in Research, LEO Pharma
- **Dr. Magnus Larsson** - Vice President, Head of Unit Surface - Process and Formulation, RISE

Metabolic diseases

Digitalization for the benefit of the diabetes patient

Co-HOSTED BY: **Medeon** and **Lund University**

SPONSORED BY: **MSD**

Digitalization is becoming an increasingly important part of healthcare, life sciences and clinical trials. Stakeholders from these areas are contributing to this development in different ways. The session will present various perspectives of how diabetes patients can benefit from such digital revolution.

MODERATOR: **Dr. Gaspar Taroncher-Oldenburg** - Editor-at-Large, Nature Publishing Group

SPEAKERS:

- **Dr. Michel de Baar** - Executive Director, BD&L - Infectious Diseases, Vaccines, Cardiometabolic, Immunology & Inflammation, MSD
- **Dr. Lars Gustafsson** - Expert, Healthcare Digitalization, CGI/KI
- **Mr. Thomas Magnusson** - Chairman of the Board, The Diabetes Organisation of Sweden
- **Dr. Damon Tojjar** - Managing Director, Easy Diabetes
- **Mr. Stephen Tindal** - Director Science and Technology, Catalent Pharma Solutions

Cancer precision medicine: state-of-the-art and future directions

Emerging treatments, diagnostics and digital solutions: how they are impacting R&D and patient care?

HOSTED BY: **Oslo Cancer Cluster**

SPONSORED BY: **Ferring Pharmaceuticals**

The global oncology pipeline is growing at an unprecedented rate, the number of approved therapies continues to rise and advances in cancer immunotherapy, novel cell and gene therapies offer novel therapeutic options. At the same time, big data, AI and digital solutions are changing drug development, diagnostics and patient care.

In this forward-looking session international experts will highlight recent advances and illustrate these with case studies and examples. They will share their perspectives on how precise and personalized today's approaches really are and how different technologies and new collaborations can address existing challenges and limitations.

MODERATOR: **Dr. Gaspar Taroncher-Oldenburg** - Editor-at-Large, Nature Publishing Group

SPEAKERS:

- **Dr. Mark Swindells** - Chief Operating Officer, Exscientia
- **Ms. Kaisa Helminen** - CEO, Aiforia Technologies
- **Dr. Jørn Skibsted Jakobsen** - Vice President, Global Clinical Research and Development, Ferring Pharmaceuticals

Facing the perfect storm

Empowered by the push from rapid technology development - How Nordic life science ecosystems need to adapt responding to increased pull from payors and patients?

Co-HOSTED BY: **SwedenBIO** and **Arthur D. Little**

SPONSORED BY: **AstraZeneca**

We are currently going through an unprecedented era of scientific, medical and technological innovation. The shift from a one-size-fits-all model to more targeted and individualized care has a suite of implications for all players across the healthcare life science ecosystem; forcing payers, providers, and drug and device manufacturers to rethink their business, operating, and collaboration models.

This session will discuss how Nordic ecosystem players need to mobilize and how to take advantage of strongholds in the Nordic countries to take a globally leading position when cross-functional collaboration will be a necessity and key competences will be a scarcity.

MODERATOR: **Dr. Ulrica Sehlstedt** - Partner, Arthur D. Little

SPEAKERS:

- **Dr. Thomas Unger** - Associate Director, Arthur D. Little
- **Dr. Magnus R. Björnsne** - CEO, AZ BioVentureHub
- **Dr. Annette Bak** - Senior Director – Head of Advanced Drug Delivery, AstraZeneca

14:00 - 15:30

Max IV - ESS - HALOS

Now is the time! Learn why and how to take advantage of unique large scale facilities for innovation and growth

Co-HOSTED BY: **Lund University** and **Malmö University**

MAX IV and ESS, DESY and European XFEL position Northern Europe as a globally unique region for life science innovation and research. Get inspiration on how to develop your products and stay competitive within your area.

The session will include an interactive panel discussion and take off from the newly started EU project 'Hanseatic League of Science (HALOS)', www.halos.lu.se.

MODERATOR: **Dr. Anna Stenstam** - CEO, CR Competence

SPEAKERS:

- **Prof. Erik Renström** - Dean faculty of medicine, Lund University and chair of HALOS General Assembly
- **Assoc. Prof. Kajsa Paulsson** - HALOS project leader
- **Mr. Fredrik Melander** - Head of R&D Relations, Science Village Scandinavia
- **Dr. Selma Maric** - Coordinator Industrial Relation, Life Sciences, MAX IV
- **Dr. Uwe Sassenberg** - Head EU-Projects, Innovation and Technology Transfer, DESY
- **Assoc. Prof. Tomas Lundqvist** - Coordinator for Large Scale Research Infrastructures, RISE
- **Dr. Anna Sandström** - Science Policy and Relations Director Europe, AstraZeneca
- **Prof. Lene Oddershede** - Head of grants for research, Novo Nordisk Foundation
- **Mr. Petter Hartman** - CEO, Medicon Valley Alliance
- **Dr. Jonas Fransson** - Director, Swedish Orphan Biovitrum
