Welcome to the Nordic Life Science Days a **sweden**BIO event

Välkommen, velkommen, tervetuloa, velkomiõ!

Welcome to the 10th edition of Nordic Life Science Days!

This event started as a small-scale meeting with large ambitions and has over the years positioned itself as the largest partnering event in the Nordics. The meeting has truly evolved into the place where the Nordic life science industry meets the world.

Whether you represent a large company or are here representing a start-up, if you have attended all meetings in the series or are here for the first time, we now open the Nordic doors for you. We serve you the region as a smorgasbord of investment opportunities, partnering offerings and collaboration openings. Grab a fork!

A decade of Nordic collaboration

The Nordic region has common roots and a joint future. We have always strived towards the boundaries, traveling east and west. We share a society built on trust, free thinking and a problem-solving mindset. We may not talk that much but we get things done.

Thanks to all collaborators who helped us open our Nordic doors.

SwedenBIO proudly presents Nordic Life Science Days

SwedenBIO is the national association for the Swedish life science industry, gathering more than 300 members. Nordic Life Science Days is our flagship event.

We cover the entire life science ecosystem and represent companies in R&D, production, and sales in fields such as biotech, medtech, diagnostics, and pharma. We also have members focused on business development, life science communications, IP, and law.

We give the industry a voice in the public arena, offer an exchange of insight and knowledge, and create platforms for networking in Sweden, the Nordics, and abroad.

We expand your business network through events and contacts

We share knowledge through up-to-date statistics, reports and courses

We provide a strong voice for a globally competitive life science industry

From innovation to improved health: the building blocks of a successful life science sector

Nordic countries form a vibrant life science ecosystem built on strong innovative culture, top-notch universities, high quality healthcare system and an industry consisting of a variety of biotech, service providers and big pharma companies. This session dives into the progress of the Nordic life science industry within the past ten years and discusses what is required from the Nordic and European life science sector to stay competitive.

Opening address

SPEAKERS:

Auditorium
11-12

Preparing for the next unicorn: how to choose your business strategy?

Nordic companies have a culture of early IPOs while the level of international investors is relatively low. How should life science companies adjust their business model to become more attractive in the eyes of international investors and pharma scouts? How to turn your business into a golden goose instead of chasing investors?

MODERATOR: **Dr. João Ribas** - Principal, Novo Holdings

SPEAKERS:

- **Dr. Andreas Schmidt** - Senior Vice-President, Singleron
- **Mr. Kerem Erden** - VP, Head of Collaborate to Cure Hub EMEA, Bayer
- **Dr. Ylva Skoglösa** - Partner, Aera
- **Ms. Agnete Fredriksen** - Co-Founder & Chief Business Officer, Nykode Therapeutics

Fireside chat 2

Exhibition
stage

Data collection is the first step, but do you really use your data?

HOSTED BY: **Dassault Sytemes • BIOVIA**

Many companies have collected or are collecting data in their labs. There is a need to use this data for prediction of experiment outcomes before they are even carried out in the lab by using this collected data. But is the data really usable? What formats is it collected in? Can it all be compared? Is this structured or unstructured data? How can the data be prepared for model building? Would make sense to rethink the whole process and define properly what the data acquisition needs to look like in order to use it later? Can Datamarts and data lakes really help?

MODERATOR: **Dr. Frank Schaffer** - Technical Sales Director, BIOVIA - Dassault Systèmes Group

13:00 - 13:30

Fireside chat 3

Exhibition
stage

A global outlook on the data driven shift to personalized medicine

HOSTED BY: **Business Sweden**

Starting with a presentation of a new Business Sweden report and followed by a panel discussion on investments into innovative Nordic companies.

MODERATOR: **Dr. Britta Stenson** - Head of Global Industry Network Life Science, Business Sweden

SPEAKERS:

- **Ms. Emma Hemmingson** - Senior Project Manager, Business Sweden Paris
- **Mr. Eric Blomquist** - Senior Project Manager, Business Sweden Madrid
- **Mr. Jonas Jendi** - COO & Investment Director, Industrifonden

13:00 - 14:00 **Innovation poster session**

Balcony

Highlighting Nordic academic projects with commercial potential

A selection of high-potential Nordic academic projects will present their solutions as posters and compete for a prestigious Nordic Innovation Award!

13:30 - 14:00 **Fireside chat 4**

stage

Catalysing life science innovation in the Nordics

HOSTED BY: **Johnson & Johnson Innovation**

Join us for an insightful fireside chat featuring Anthony Gemmell and Bobby Soni. Together, they will discuss strategies for advancing the life science ecosystem in the Nordics, expanding its footprint. This session will encompass an overview of the Danish system, the challenges in catalyzing startups, and potential opportunities for connecting scientists with the breadth of investment in the region.

SPEAKERS:

- **Mr. Anthony Gemmell** - Senior Director, Johnson & Johnson Innovation
- **Dr. Bobby Soni** - Chief Business Officer, BioInnovation Institute

14:00 - 15:00 **Super session 3**

Auditorium
11-12

Harnessing data to improve our health

The capability to collect different kinds of health data streams has exploded during the past years, offering great potential to prevent, predict and treat diseases. Integration of data streams and arise of AI offer unique business opportunities for emerging biotech companies, big pharma, and even giant tech companies – all aiming to fulfill the potential of precision health. During this session, the panelists discuss what is required to harness health data to fulfill its full potential to improve our health.

MODERATOR: **Dr. C. Mikael Mattsson** - CEO , Svexa

SPEAKERS:

- **Dr. Tine Jess** - Professor, PREDICT National Center of Excellence, Aalborg University Copenhagen
- **Mr. Mattias Kyhlstedt** - CEO and Founder, Synergus RWE
- ...

Opportunities and challenges with new drug modalities

New drug modalities such as cell and gene therapies and mRNA have shown great potential to cure patients suffering from cancer, infections, and other diseases. The Nordics is a home for several biotech companies developing groundbreaking novel therapies. This session explores what the main opportunities and challenges are related to development, manufacturing, regulatory aspects, and clinical use of new drug modalities.

MODERATORS:

- **Dr. Anders Holmén** - VP & Head of Pharmaceutical Sciences, BioPharmaceuticals R&D, AstraZeneca
- **Dr. Ulrica Sehlstedt** - Global Practice Leader Healthcare and Life Sciences, Arthur D. Little

New era in CNS: Rising from the ashes

Diseases in the central nervous system are devastating for patients and their families and costly for society. Pharma and biotech companies from the Nordics have been actively involved in the recent developments of treatment of Alzheimer's diseases and other neurological disorders. This session highlights the recent successes in the field of CNS and explores the key factors to advance treatments of CNS diseases.

MODERATOR: **Dr. Marc-Olivier Bévierre** - VLife Science Practice Leader, Cencora

SPEAKERS:

- **Ms. Beth Wolff** - Director Digital Health Solutions - Global Corporate Strategy & BD, Lundbeck
- **Dr. Richard Reschen** - Director, Business Development & Licensing Europe, MSD
- **Dr. Gunilla Osswald** - CEO, BioArctic
- **Dr. Peter Horn Møller** - Founder & Partner, Marigold Innovation & CEO, Zyneyro

Pharmaceuticals

COMPANIES:

11:00 BioArtic - Pharmaceuticals

11:15 MSD - Pharmaceuticals

11:30 AstraZeneca - Pharmaceuticals

12:00 - 13:00 **Lunch workshop 2**

Room 18-19

Pride and prejudice: Are VCs and start-ups on the same page?

Limited capacity. Pre-registration required.

To close a deal, VCs and start-ups need to understand each other. This interactive workshop gathers VCs and start-ups to discuss 'prejudices' that arise on each side of the funding table.

HOSTED BY: **YVC Collective • SwedenBIO**

12:00 - 12:30 **Fireside chat 5**

Exhibition stage

The future of clinical studies in CNS

HOSTED BY: **Link Medical**

LINK Medical, as a CRO company, is interested in how we can conduct studies so that they bring as high value as possible for the patients. How can this be done? Listen to KOLs and experts in the field discuss how to increase the value for the patient and secure the quality of the data.

MODERATOR: **Dr. Kim Simonsen** - Drug Development Expert, Consultant

SPEAKERS:

- **Dr. Anne Börjesson-Hanson** - Senior Research Physician, Karolinska University Hospital
- **Mr. Patrik Åvestrand** - CEO, Cliniqnect
- **Mr. Mario Baban** - Group Manager Clinical Data Management, Link Medical

12:30 - 13:00

Fireside chat 6

Exhibition
stage

From reactive to proactive: data analytics that supports collaboration and risk-based approaches

HOSTED BY: **Dassault Sytemes - Medidata**

Today's complex clinical trials bring real challenges to data quality oversight. The explosion of digital capabilities to collect and monitor data remotely brings new opportunities: greater and faster insights into patient safety and treatment efficacy, exploration of novel endpoints, and reduction of patient burden. However, it also creates new problems for data management and clinical monitoring teams. Traditional retrospective data management and monitoring approaches using SAS listings on all data, manual reconciliation, and 100% source data verification are not scalable.

In this session, let's discuss the future of data quality oversight and how data analytics improve collaboration across operational teams and data monitoring processes.

13:00 - 13:30

Fireside chat 7

Exhibition
stage

Challenging tradition: the argument for integrated commercialisation

HOSTED BY: **Eversana**

EVERSANA's moderator will be joined by panelists from large pharma, biotech and research to dive into options beyond the traditional partnering structures. Each potential structure will be explored to understand the potential opportunities and challenges associated with the development and commercialisation of a novel asset.

MODERATOR: **Ms. Ashley Cox** - Partner & Head of Europe, Eversana - Regional Chair Northern Europe, Healthcare Businesswomen's Association

SPEAKERS:

- **Dr. Jesper Hedberg** - CEO, Testa Center
- **Ms. Anne-Marie Wenthzel** - Chief Business Officer, Sprint Bioscience

EVERSANA™

13:00 - 14:00

Innovation poster session

Balcony

Highlights in Nordic academic projects with commercial potential

A selection of high-potential Nordic academic projects will present their solutions as posters and compete for a prestigious Nordic Innovation Award!

13:30 - 14:00

Exhibition
stage

Highlights on SPARK's Innovation & Support program.

HOSTED BY: **Spark Denmark • Spark Finland • Spark Norway**

The remarkable success of Stanford University's SPARK Program has served as a catalyst for universities worldwide to establish their own SPARK programs, dedicated to nurturing and professionalizing academic innovation.

During this session, the Directors of the Nordic SPARK Programs will engage in discussions about the crucial significance of a robust Nordic collaboration and the potential accomplishments that can be realized through collective effort. We will receive insights from academic innovators in the SPARK programs and investors. We will focus on how a united Nordic endeavor can streamline the process of translating academic discoveries into a commercial setting and how we can attract more global interest from industry and investors as a Nordic SPARK community.

MODERATORS: **Dr. Morten Egeber** - Director, SPARK Norway
• **Mr. Pasi Sorvisto** - Director, SPARK Finland • **Dr. Lene Nørby Nielsen** - Director, SPARK Denmark

14:30 - 15:15 **NLSDays awards & Closing address**

Exhibition
stage

NLSDays awards

In the final stage program of the Nordic Life Science Days 2023 we invite you to look ahead into a prosperous future of life sciences, by handing out awards to our academic innovation project and young companies.

The two prizes that will be awarded on stage at the NLSDays Closing ceremony are:

The Merck Advance Biotech Grant Program – Nordics
