

SciLifeLab - A National Resource for Life Science

Satellite Symposium to the Nordic Life Science Days 2018

Location: Aula Medica, Karolinska Institutet

Date: Monday, September 10, 2018

SciLifeLab (Science for Life Laboratory) is Sweden's national center for molecular biosciences, with the mission to provide a unique and enabling infrastructure to the life science community, facilitate internationally leading collaborative science, and promote the translation of biomolecular research findings into lasting societal benefits.

As part of the Nordic Life Science Days 2018, we invite you to attend a one-day satellite symposium to learn more about SciLifeLab, meet our facilities, investigate our capabilities and technologies, and further develop how your organization can leverage this unique asset in Sweden's life science sector.

The symposium is free of charge and exclusive for registered participants of NLSDays. If you have not yet registered for NLSDays, please visit www.nlsdays.com. Bus service round trip from Stockholm Waterfront will be provided.

Welcome to sign up before 26 August - seats are limited:
