

**Event name:**

Nordic Life Science Days 2022 – NLSDays 2022

28-29 September 2022

Malmömässan – Malmö - Sweden

Nordic Life Science Days is the largest Nordic partnering conference of its kind, welcoming a community of life science professionals and offering a unique place to do business.

NLSDays attracts leading decision makers from biotech, pharma and medtech as well as finance, research, policy and regulatory authorities. Here, startups and early-phase clinical projects can find new investors, established businesses can find commercial partners for expansion, and global pharmaceutical and biotech companies can evaluate new and promising investment opportunities in the Nordic region.
